

## Aquatics

The City of Miami Springs Municipal Pool is located directly across from the Community Center located at 1401 Westward Dr. The pool is 50 meters long but during most of the year it is divided into 25 meter sections. The Miami Springs Municipal Pool is heated and offers swim lessons, water aerobics, lap swimming and open swim. Check out all that the pool has to offer and start splashing around, who knows where the next Michael Phelps or Natalie Coughlin may be discovered.
